Product Brochure

Keep your premises secure in the
cloud

.videoloft

What is Videoloft?

Videoloft deliver cost-effective CCTV solutions via the cloud. Their cloud adapter can connect to your existing hardware, as well as supporting a range of well-known surveillance cameras.

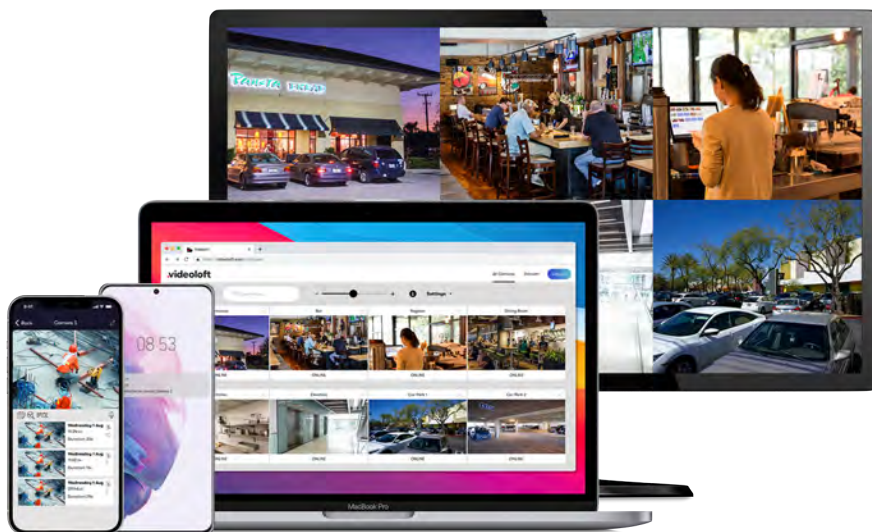

The Videoloft portal then allows an unlimited number of users to access your cameras live anytime, anywhere. The portal can be accessed via the desktop or mobile app.

The Benefits of Videoloft Cloud CCTV

- Recorded footage is stored in a secure, offsite cloud storage
- Live motion alerts let you know about any movement
- Encrypted recording
- Accessibility anytime, anywhere via desktop or mobile app
- Multiple user access at no extra cost
- Real-time control allows you to pan, tilt and zoom your cameras

Expected uptime
of 99.9% via
Amazon Web
Services

Here is an example of the Videoloft portal on desktop and mobile:

All recorded footage can be retained for a time period of your choice. We offer 7, 30, 60, 90 and 365 day retention packages.

.videoloft

Step 1: Cloud Adapters

To get started with your Videoloft setup, you'll need to select your cloud adapter.

The Videoloft cloud adapter connects to your existing setup, allowing you to combine your existing system with the cloud management. Alternatively, you can use this to replace your monitoring hardware with the cloud platform.

There are three cloud adapters to choose from:

		
8-channel adapter	16-channel adapter	64-channel adapter
Up to 8 cameras	Up to 16 cameras	Up to 64 cameras
£85 +VAT	£125 +VAT	£425 +VAT

The cost of the cloud adapter is a **single purchase price** - unless of course you decide to increase the number of cameras connected to the adapter above its limit.

The cloud adapter provides you with extra security and footage encryption. The adapter stores recordings in case of a network outage, meaning you won't lose valuable footage.

All the cloud adapters come with a **5-year warranty**.

The adapters work with the following camera brands:

- Amcrest
- AXIS
- Hikvision
- Panasonic
- Sony
- Bosch
- and more.

Step 2: Retention Packages

Once you've got your cloud adapter and cameras, you will need to select your preferred retention for recorded footage.

Our pay-monthly plans are based on the retention length. This is per camera per month.

Retention	Per camera, per month
7 Days	£8.99 +VAT
30 Days	£9.99 +VAT
60 Days	£11.99 +VAT
90 Days	£14.99 +VAT
365 Days	£31.99 +VAT

Optional add-on: There is the option to add object and text detection to your plan at an additional monthly cost. This is per camera per month.

Object and text detection	£12 +VAT
---------------------------	----------

Step 3: Set Up

We can support you in setting up the portal, cameras, and users, as well as installation of cameras.

Based on your requirements, we'll put together your quote for setup and you'll be on your way!
